WORK EXPERIENCE

UIUX Designer

Photoshooto , Bangalore, Karnataka

Jun-Aug 2023

- Proficient in conducting user research, creating wireframes, and developing high-fidelity designs to craft intuitive and user-centric app interfaces.
- Skilled in collaborating closely with cross-functional teams, including developers, to ensure the seamless integration of design elements while adhering to technical constraints..
- Experienced in conducting usability testing, prioritizing accessibility, and implementing micro-interactions to enhance user engagement and satisfaction, resulting in the delivery of successful mobile-responsive apps aligned with product strategies.

Content Writer

Suvidha Foundation (Suvidha Mahila Mandal), Nagpur, Maharashtra

Dec 2022 - Jan 2023

- Contributed to the creation of engaging and impactful content across diverse platforms as a Content Writing Intern at Suvidha Foundation (Suvidha Mahila Mandal), collaborating with the content team to produce well-researched articles, blog posts, and social media updates.
- Adapted writing style to match the brand's voice and implemented basic SEO techniques to enhance content visibility, demonstrating a commitment to understanding and meeting audience needs.
- Actively engaged in team discussions, provided support in content editing and proofreading, and analyzed content performance metrics, gaining valuable experience and a strong foundation in content creation principles for future career endeavors.

PROJECTS

- **SecureDOT-Antivirus**, Developed a rudimentary antivirus program identifying viruses by their SHA-256 values, automatically deleting matching files. [GitHub](#)
- **Infiltrator Virus** , Created a keylogger capturing user keystrokes, then forwarding data to an email address, enhancing cybersecurity awareness and prevention strategies. [GitHub](#)
- **Encourage Discord Bot** , Developed a user-friendly bot application leveraging Python, SQL, Replit (cloud), and UptimeRobot to automate tasks based on user input.. [GitHub](#)
- **Vehicle Rental App** , Created "Vehiclechain," a web app enabling vehicle rentals via Blockchain technology, facilitating transactions, and managing ride durations and payments. [GitHub](#)

PUBLICATIONS

- A Complete Guide to NFTs [Link](#)
- DeFi-A safe approach to Finance [Link](#)
